

# Welcome to Grange Park

## Grange Park is an area of approximately 2 acres . . .

In 1994 Scothern Parish Council granted permission to lead a project to develop the land as a **conservation area**.

The Parish Council supported the proposal and during the next three years planting of trees, shrubs and wildflowers took place. Following this a management committee was formed to oversee future developments of **Grange Park**.

The present management group is encouraging wildflowers to grow and flourish. A grass cutting programme has been devised to support this which includes the use of yellow rattle. An area of the park has been planted with snowdrops, aconites and native bluebells to provide colour in the Spring.

In 2018 the group created an orchard of Heritage Lincolnshire apple trees which has now been underplanted with native daffodils.

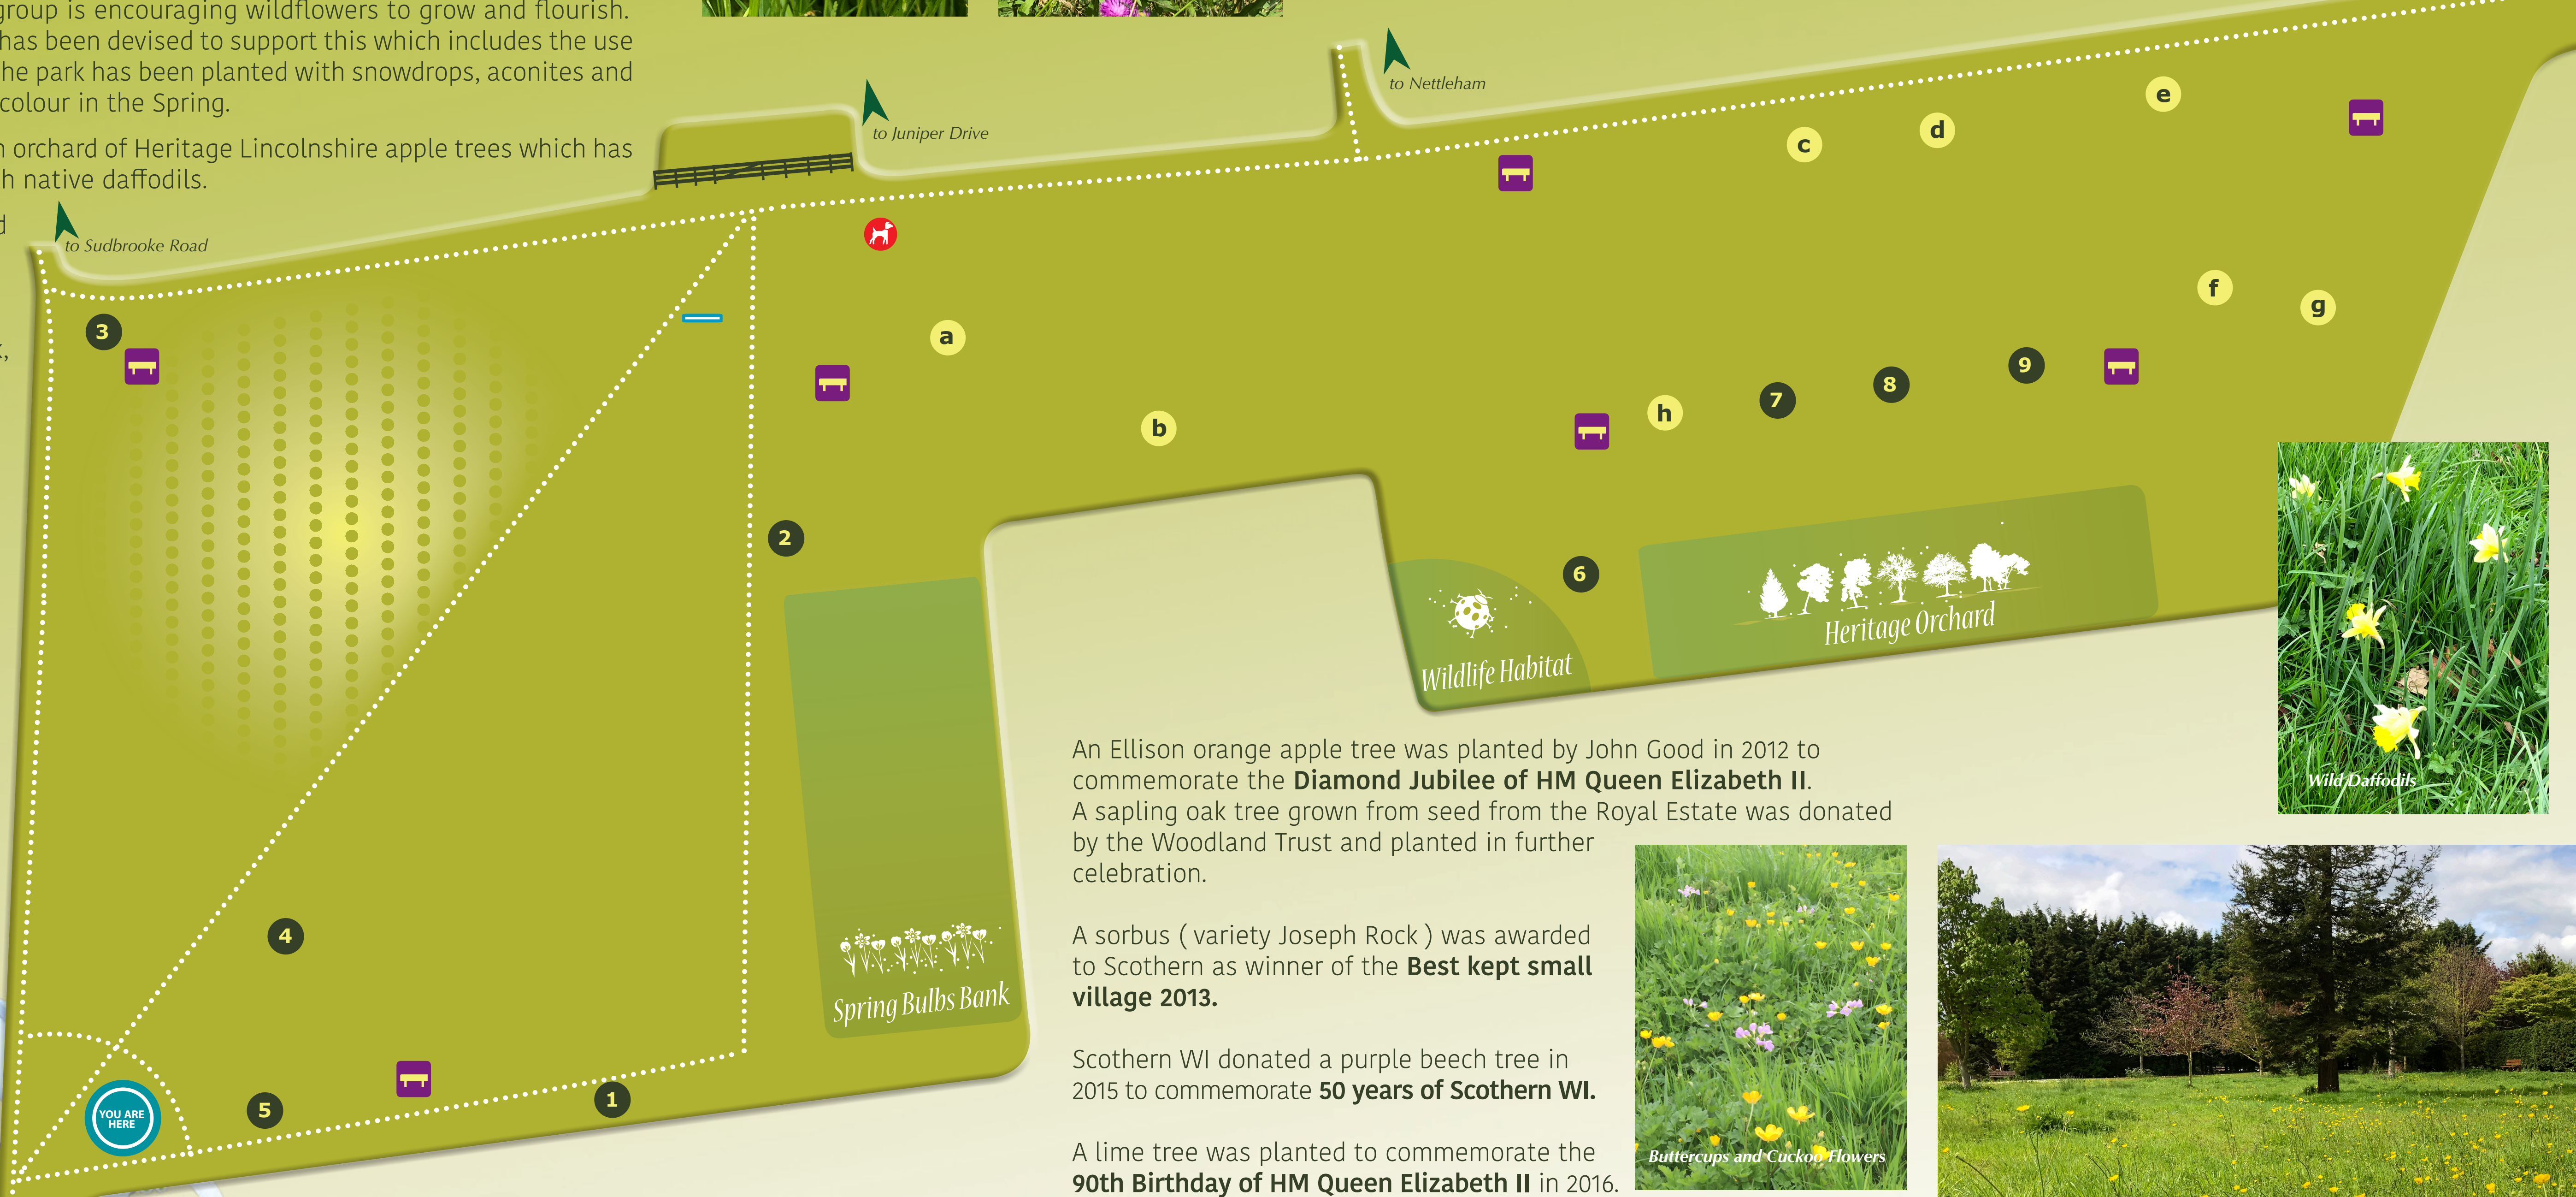

Tree planting has continued over the years since 1997. You will find examples of both native and non-native trees including oak, red oak, beech, maple, lime, plane, redwood, spindle, indian chestnut, walnut and rowan.

Many trees have been donated by Lincolnshire County Council, the Parish Council, Scothern Nurseries and a number of residents in the village.

Enjoy Nature.

An Ellison orange apple tree was planted by John Good in 2012 to commemorate the **Diamond Jubilee of HM Queen Elizabeth II**. A sapling oak tree grown from seed from the Royal Estate was donated by the Woodland Trust and planted in further celebration.

A sorbus ( variety Joseph Rock ) was awarded to Scothern as winner of the **Best kept small village 2013**.

Scothern WI donated a purple beech tree in 2015 to commemorate **50 years of Scothern WI**.

A lime tree was planted to commemorate the **90th Birthday of HM Queen Elizabeth II** in 2016.
